Business Notices.

The state of the s FURNISHING DEPARTMENT.

LANE. ORANGOED & Co. Beg to announce that they have just received their NEW STOCK of

CARPETS AND FURNISHING GOODS IN THIS SEASON'S DESIGNS,

Comprising:-VICTORIAN AXMINSTER PARQUET CARPETS of Indian and Persian Designs, woven in one piece, without Seam. LANE, CRAWFORD & Co. invite special attention to the above on account of their exquisite designs and colourings, excellent quality and moderate price. A few of the Combinations of Colourings are enumerated below:-

> RED INDIAN FILLING WITH CAMEL INDIAN BORDER. BLUE INDIAN FILLING WITH CAMEL INDIAN BORDER. GOLD INDIAN FILLING WITH CAMEL INDIAN BORDER. CAMEL INDIAN FILLING WITH RED INDIAN BORDER.

3,500 YARDS BEST QUALITY BRUSSELS CARPETS in Art Designs and Colourings, WITH BORDERS AND RUGS TO MATCH. 2,000 YARDS 2ND QUALITY BRUSSELS CARPETS in Art Designs and Colourings, WITH BORDERS AND RUGS TO MATCH.

3,000 YARDS TAPESTRY CARPETS in Art Designs and Colourings, WITH BORDERS AND RUGS TO MATCH. . KENSINGTON CARPETS.'-These are inexpensive but most Artistic productions of the English Loom, woven in one piece, without seam, hordered, fringed and reversible; may be had in a variety of Patterns and Sizes, Suitable for Reception and Bedrooms. 'WESTMINSTER CARPETS.'-These are similar in texture to a medium quality Brussels Carpets, most Art-

istic in Design, inexpensive and durable, suitable for Dining and Drawing Rooms. A great VARIETY TO SELECT PROM IN VARIOUS SIZES. 'ORIENTAL CARPETS AND RUGS.'-A Splendid Collection of Antique Persian and Indian Rugs and Carpets; -Daghestan, Koula, and Scindo Rugs in great variety. An immense assertment of Axminster and Velvet Hearth Rugs, Sofa Carpets, and Door Mats. Sheepskin Rugs and Mats in ell Colorings.

Tapestries and Covering Fabrics. A Splendid S-lection of Patterns in WOOL, SILK and WOOL, and SILK TAPESTRIES for CURTAINS

and COVERING FURNITURE, Double width, from \$1.00 per gard, SILK FURNITURE PLUSHES, Utrecht Velvets, Embossed Velvets, and Roman Satins in all the newest shades, Peacock, Ruby, Terra-Cotta, Old Gold, Sapphire, Cardinal, &c., &c., &c.

'TRIMMINGS.'-An immense assortment of Art Trimmings & Fringes, with Gimps, Cords, and Tassels to match, in every possible combination of Artistic colouring. TAPESTRY and PLUSH MANTEL BORDERS from \$1.50 each. 'CRETONNES,'-A splendid range of patterns from 25 cents per yard. 'ALL WOOL REPS & DAMASKS,' in

every colouring. 'TABLE COVERS,' Novelties in Plush, Satin, and Embossed Velvet, Tapestry Covers 3 and 4 yards long for Dining Tables. 5 o'clock Tea Cloths in pretty designs, Side-board and Carving Cloths in great variety.

OVERMANTELS, MIRRORS, GIRANDOLES, BRACKETS, PERAMBULATORS, &c. ARTISTIC DRAPERIES AND VALANCES.

Chenille Curtains with Borders and Dadoes. These are woven in the CURTAIN with BORDER and DADO to MATCH, most artistic in effect, require

no lining or trimming. Vouschold Draperg Bepartment.

A COMPLETE STOCK OF EVERY DESCRIPTION OF HOUSEHOLD DRAPERY :-Linen, Cotton and Twilled Sheeting in all widths. White and Coloured Counterpanes every size. Toilet Covers with Fancy Sets for the Toilet Table to match. White and Coloured Dimities. Glazed Chintzes and Cambrics, Table Linen and Napkins. Checked Dusters and Glass Cloths. Doyleys and Table Mats. Stair Linens and Crumb Cloths. Belgian and Fancy Ticks. Towels and Towelling. &c., &c., &c.

Blankets and Cider Down Quilts. Austrian, Uniformia, Samony, and Witney Dhinheto its every size.
300 PAIRS TO SELECT FROM. Eider Down QUILTS and PILLOWS in Turkey Chintz, Dolly-Varden Sateen, and Satin Coverings. Chair Cushions and Feather Pillows.

Bedstead Department. LANE, CRAWFORD & COMPANY have seldom less than 10) Bedsteads in stock of various patterns to suit all purchasers: they have just received an Elegant All Brass Half Canopy Bedstead and a very handsome All Brass Four-Post ditto, which are now on view. SPRING MATTRESSES, -Sanitary Woven Wire and Chain Spring Mattresses in every size to fit any

Bedding. LANE, CRAWFORD & COMPANY'S BEDDING is all manufactured by themselves and guaranteed pure, none but NEW and FIRST-CLASS MATERIALS being used. As there are several unscrupulous Tradesmen and

Dealers, who, by using second-hand horse hair and stuffing, are able to offer worthless articles at compar-

atively low prices, Lane, Crawford & Co. beg to intimate that in making Bedding they use none but rew and First Class Materials and guarantee the purity of their productions. OLD MATTRESSES purified and re-made. OUR NEW STOCK OF FENDERS, FIRE IRONS, FIRE DOGS, ASH PANS, COAL VASES, FIRE SCREENS, NURSERY GUARIS.

A very Fine Selection of MARBLE MANTEL PIECES, CURBS and TILED HEARTHS. Furniture. Every description of HOUSEHOLD FURNITURE, Drawing Room, Dining Room, and Bed-room SUITS,

American CHAIRS, and Bentwood FURNITURE. Old FURNITURE recovered equal to new. ESTIMATES and Designs Free. LANE, CRAWFORD & Co. respectfully ask intending purchasers to COMPARE the QUALITY and PRICES

of their Goods before purchasing elsewhere. LANE, CRAWFORD & Co.

HONGKONG, MURSDAY, NOVEMBER 8, 1888. THE Chinese ommunity are, we hear, very indignant at te treatment they are receiving from the Surveyer General's department with rgard to the removal of the 'enclosure' of their verandabs. In order to disam opposition, the remark has again arl again been made b the Surveyor General in the Legislative Council and to Sanitary Board that he and his officers my be trusted to carry out a measure in aiberal spirit. But again and again this he been proved not to be the case; and aprotty flagrant instance of this is afforded by the ruthless action they are taking with regard to the 'clearing of vendolis. Everyone will admit that the cent ordinance passed by the Legislativ Council forbidding the enclosand one lculated to do a great deal of good. Wat was wanted was that no one should a longer be permitted to use verandaks a cook-house or general lumber store, oto close up his verandah with shutters front, so that in case of fire no water old be poured in. The Survoyor (neral's department have, however, ierpreted their instructions in a much der sense, and so as to render the verands of no use to the greater part of the Chese. A cross beam at the top to hang aslind or is ruthlessly torn down. Not estent with all the shutters being cleare away, elen the small upright posts tlat apported bem are an eye sore to the dicias. No reans of separation is allowd beween th verandahs of contiguous nouse, so thaif a Chinaman or his wife wishes o sit of the verandah he or she must do so in the sign of all the neighbours on that side of the stret. These are a few of the complaints he are made on all hands.

others, but there is one grievance which we think ought to be inquired into, and that is that little assistance in construing what is required by law is given to landlords or tenants. In several of the cases heard recently it is alleged that Mr Cooper was appealed to meant by an enclosure and all that could be got out of him was that the Ordin-Per Don Juan, at 3.30 p.m., on Saturday, | ance was to be obeyed. We need not insist at this time of the day on the necessity of the Chinese being instructed thoroughly in what is required of thom. These laws, essentially European in their character, have to be explained again and again to them and the require-Per Kashyar, at 11.30 a.m., on Thursday, ments shown to them. Another thing complained of in connection with the recent prosecutions is that a want of consideration is shown for most respectable of the houses. The ordinance provides, Walsh a copy of Mr Denny's pamphet on it is true, for the prosecution of both, but there can be no doubt that the intention was only to prosecute the landlord when it ordinance. They told the tenants that no left Singapore for here on Wednesday, 7th enclosures would be allowed and sent their inst., at 4. p.m. servants to see that the work was begun. case, however, and down on them, as the before 4 p.m. to morrow.

FIRE broke out shortly after five o'clock this afternoon in the back premises of the Ying We rattan shop, number 18 Albany Street, Wanchai. The shop consists of n substantial three-storey building, behind which, and separated from it by a double brick wall, is a house in which a large quantity of rattans and bamboo shavings was stored. The fire originated in the cookhouse here,—from what cause is not known -and in a few minutes spread to a ful. It seemed admitted on all hands that room, full to the ceiling, of the light and combustible wares above mentioned. The closeness with which the material was diminished, and we suppose his defeat may packed kept it from blazing as it would be said to be due to the loss of this otherwise have done and enabled the Fire Brigades to confine the damage almost solely to this one room. The loss is therefore slight. The premises, we under-

yet to have derived any benefit from the things have turned out it has only been a doubtful blessing to him after all. He did not avail himself of the new supply to increase the number of his ablutions, but being a milkman he took advantage of it to augment his daily stock endeavoured to palm it off on his unof pure milk brought him before the Police Court Mugistrate. The case was remanded, and Su Akwai was allowed out on a deposit of \$10. As he did not appear to-day when the case was called, this sum was for-

use of both gold and silver as money and Lake Kokonor and the upper course of the condemns the policy of the Democratic Ad- Yangtsze, and although badly equipped ministration in its efforts to demonstise and suffering great privations brought back to their letters of recommendation, were silver.' When we consider along with this many valuable specimens of the flora that the Currency Commission are said fauna and much useful information as the physical geography of the country traversed. An interesting account of his explorations was published and translated into English. In 1876 he started on his third expedition from Ku ja to Lob-Nor, and a few years ago he made a fourth journey in stake, when suddenly a police commissaire the same region. He has written an account of these two expeditions, and there is an English translation of the former. Only two months ago he set out on his fifth journey with the intention of penetrating to Lhassa, the capital of Tibet. He was to travel by the new Central Asian Railway to Samarcand, proceeding thence to Semiretchinsk, and so to the Tibetan tuble lands. Great hopes were entertained that on this He replied to them, however, with a cool occasion he would succeed in reaching the forbidden City of the Grand Lama, and his untimely death will be deeply regretted by are interested in geographical

Some of them may be more justified than | The P. & O. steamer Thames, with the | The Polomatch Mi itary v. Civilians did not take place yesterday. Several of the latter at 4 p.m., and may be expected were unable to play, so there was a pickhere on or about Monday, the 12th up game,-Mesara Churchill, Armstrong, Woodcock and Anderson against Collinson, Bethell, Gray and Whitehead. Churchill did some brilliant hitting; his team played well together, and were much too strong for their opponents, scoring three goals in quick time against nil. Woodcock changed places with Whitehead, the latter being on a fresh and promising mount, but Churchill's may be expected here on or about the side again played well together and had the best of it although each side scored one goal. There is a marked improvement in the general play, but practice is very essential, especially as regards keeping well together and backing up the player. Woodcock made fast running and pretty play all round. Gray on his new mount was not so much on the ball as in late games. The military are at present toe strong and quite outnumber the civilians. It is much to be regretted that more of the latter do not turn out, for the game is very good China and Corea, the most of which we sport. Owing to the meeting of the Hongkong Rifle Association, there will be no game on Saturday, but the ground will be

open for practice. WE would remind our readers of the meeting of the Riflo Association which begins to-morrow. The following is a list of the

by J. D. Humphreys, Esq. From the annual report on education in Scotland a writer in the Standard has culled some choice specimens of the wild answers of hard-run pupils. The narrative of Jonah and 'that whale who was almost persuaded to be a Christian ' is painfully good. which outsiders may be pardened for not THE only Chinese resident who is known as But it is not equal to the biography of the same Patriarch compiled by a Board-school boy competing for one of the Peek prizes. 'He was the father of Lot, and had two wives. One was called Ishmale, and the other Hugher; he kept one at home, and he turned the other into the dessert, when she became a pillar of salt in the day time, and a pillow of fire at night.' The following is almost equally impressive. 'Mosses was an Egyptian. He lived in an ark made of bullrushers, and he kept a golden calf and worshipped braizen snakes, and et nothing but kwales and manna for forty years. He was caught by the hair of his head, while on trade would be devoted to. The Re- suspecting customers as genuine lacted riding under the bough of a tree, and he was killed by his son Absolom as he was hanging from the bough.'

> A veny interesting question involving the citizenship of a Chinese girl has, we note from American exchanges to hand, just been decided by Judge Deady of the United States Court in Oregon. The Chinese parents of the girl lived in Oregon. The father some years ago sent his wife and daughter to China to stay as they desired to stay. The girl was a minor when she went to China. When she returned the U.S. customs officials refused to allow her to land without a certificate, whereupon the matter was apnealed to the court. The presiding judge, Deady, held that under the fourteenth amendment to the Constitution, her birth in the United States made her a citizen of that country. The counsel on the opposing side admitted this, but held that the sending her to China for an indefinite period was really a renunciation of her citizenship. Judge Deady held that no act on the part of the parents of minor children could be construed as renouncing the rights guaranteed to every individual under the Constitution. The girl was permitted to land. This is a new point and quite an important one in view of complications which may arise if the pending treaty between the United States and China should finally be rejected.

THE Globe tells the following story :- Some months ago, in a fashionable avenue in Paris, there were installed in a fine house the Count and Countess de G., who, thanks eceptions given by the Count were the talk of Paris for their princeliness, and it was generally believed that he was spending a colossal fortune. After having passed August yachting, as he said, the Count returned to Paris a few days ago and gave a grand reception to those friends who had not quitted the capital. Baccarat was played, and some fifty thousand francs were at entered, accompanied by two others, and appearing before the table said, 'In the name of the law I seize these stakes, and request you, gentlemen, to give me your names.' The Count vigorously protested that he was at home and could do as he liked, but the officer persisted and carried off the money. One of the deepest players, however, smelling a rat, went to the office and discovered that the man was a sham, Haveng his suspicions of the host, he collected his friends, and in a body they went to the house to ask an explanation, dignity that quite imposed on them, that is the man were not really a policeman ha would next day pay the sums seized. On the morning, however, when they came to find the Count and Countess de G., they had disappeared, and have been no more heard of,

But it is now that the real difficulty commences; as the task of the closing the last few hundred feet owing to the great rush of water, will be one which with the appliances and material at their disposal they can hardly hope to accomplish successfully, till after much trouble, if at all. -N.-C. Daily News.

THE question as to what is to be done in order to stop the breach in the Yellow River and prevent in future such disastrous floods as Ohina has recently experienced, is still as far from being solved as ever. The system, as adopted by the Chinese, has some nine millions of Taels have been wasted without rendering matters one iota the batter. A number of foreign engineers who some time ago proceeded to the scene of the break in the embankment, returned a few days ago, also without having reached their object, their schemes, in all probability, being doesned by the Peking Government too expensive, or, what is more likely, not feasible. Matters, therefore, are still in statu quo ante, and will remain so, apparently, for some time to come. measures might be taken which eventually would bring about happy results in the question at issue, can hardly be doubted, and all foreign engineers who have eurveyed the course of the Yellow River, have full confidence in the feasibility of their schemes. For, similar ones have been successfully carried out by some of the European nations, as, for example, in France, where the overflows of the Sacen River were the cause of incessant trouble. The method adopted in this instance was to dam up some of the gorges of the Jura mountains, which thus formed vast revervoirs. Similar schemes are shortly to be executed in Gormany, in order to prevent such disastrous floods as occurred lately in that country, when the rivers Elbe and Oder overflowed their embankments. Yes, by latest advices from the United States we learn that a gigantic scheme which the canyons of the Rocky Mountains are to be dammed up from the Canadian boundary to Mexico, in order to form vast reservoirs of water to be used in the irrigation of arid lands, and so prevent fleods in the Lower Mississippi, which occur about as frequently and are as disastrous as those of 'China's Sorrow.' It has been estimated by the director of the U.S. National Survey that at least 150,000 square miles of land might. thus be reclaimed—a territory exceeding in extent one-half of the land now cultivated in the United States. The plan is to build dams across all the canyons in the mountains large enough and strong enough to hold back the floods from heavy rains and melting snows, and then let the water down as it may be needed upon the land to be reclaimed. We do not profess to be an authority on questions which solely lie within the province of civil engineering, but if we compare the topography of the country through which the Yellow River in 118 upper course flows with that of the Mississippi, we believe that a scheme, similar to the one proposed by the U.S. Bureau of Surveys, would also fully answer in the case of the Hoang Ho, which is certain to remain 'China's Sorrow' as long as the Peking gove ament attempts to do the work without the aid of foreign experts.—Shanghai Courier.

SUPREME COURT. IN APPELLATE JURISDICTION. (Before Hon. J. Russell, Acting Chief. Justice; and Mr A. J. Leach, Acting Puisne Judge.) Thursday, Nov. 8.

CHING FAN, APPELLANT; HO YUEN SU, RESPONDENT.

This was an appeal against an order made in Chambers by the Acting Chief Justice. in the matter of the estate of Loung Yu Sha, deceased. The appellant is executor of the estate, and the respondent claims to be a pecuniary legates. The appeal is on the point whether proceedings for an administration order could properly be taken on an administration summens. The Attorney General (Hon. E. L. O'Malley), instructed by Mr Reece, of Mr Creasy Ewens' office, appeared for the appellant and Mr Francis, Q.C., instructed by Messrs Dennys & Mossop, for the respondent.

The Attorney General said that under Ordinance 7 of 1856 certain regulations of procedure were declared to be law in this Colony, and amongst others section 45 of 15 and 16 Victoria, chapter 86. Section 45 of that Act had since been repealed in England, but, of course the repeal did not affect the Act once it had been adopted here. There had been no express repeal of that section, so that subject to any qualification or restriction as to its operation that might be implied in the Code, section 45 of the Act remained as law in this Colony. By Section 3 of the Codo-which dealt with the question of how far the Code and the procedure prescribed by the Code superseded and in fact repealed or suspended the operation of all previously existing laws regulating procedure in this Colony—it was provided that nothing in the Ordinance should be deemed to affect procedure and practice in the Supreme Court 'further or otherwise than is herinafter expressly enacted.' Section 4, which must be read along with the preceeding section, carried the matter a little further. It provided that except so far as might be otherwise specially provided in the Code all enactments. Ordinances, Acts and parts of Acts relating to procedure should be deemed to remain in force so far as they did not conflict or were not inconsistent with the Code procedure. What he contended with regard to an administration | The following are the results of the drawsummons was that it could not be left to lings of the undermentioned lotteries held many others-was drafted and submitted the city. be governed by the old procedure because at the Shanghai Club ;the old procedure was inconsistent with The Criterion Stakes .- Mr John Peel's vernment, but for reasons into which it is character of the hills, I am of opinion that whole area. the Code, and although there was no parti- stable, \$65; Mr John's 50; Mr Sassoon's unnecessary to enter here, that Bill under the built area may Main No. 3 providing for the sewerage of assigned the first prize of 5000 frances to Macular or express provision relating to this 40; Mr Rodney's 30; Mr Triad's 20; fortunately was never presented to the Lesubject there was a more general provision Mr Tell's 20; Mr Toeg's 10; Mr Monat's gislature until the assumption of the Go. the city 2 inches of rain-fall per hour, over sheets I and II,) will commence in Queen's of Guadeloupe, and the second, of 2000 which, he contended, completely excluded 10; Messrs Morgan & White's 6.—Total vernment by His Excellency General Gor. their respective areas. Their Lordships reserved judgment. IN SUMMARY JURISDICTION.

(Before Mr A. J. Leach, Acting Puisne Judge.) Thursday, Nov. 8.

UN PO v. E. TOBRES.

The hearing of the suit at the instance of the Un Po, timber merchant, against Father E. Torres of the Spanish Procuration, for \$462 for wood alleged to have been supplied on the order of defendant to a Chinese building contractor (who has since disappeared), was resumed to-day. Webber appeared for the plaintiff, and proved, as we all know, utterly useless, Mr Francis, Q.C., instructed by Messrs Sharp, Johnson and Stokes, for the defend-

> Mr Francis said the goods claimed for by the plaintiff had no doubt been sent forward and used in the construction of the buildings which were being erected by the contractor for the Spanish Procuration, but it was quite clear were not obtained on the authority or order of the defendant. The Procuration entered into a contract with the contractor for the erection of two houses in Castle Road for the sum of \$14,400, the contractor having to supply the materials. When the contractor had exceeded the stipulated time by two months, the buildings being then only half finished and \$11,000 having been paid to him, he had to be dismissed and another man engaged to complete the work. The Procuration had been put to very heavy expense in connection with the matter. It was a case in which, unfortunately, one of two innocent persons had to suffer. The contractor was not able to pay, he being insolvent, and the plaintiff naturally tried to recover the money from Father Torres. There was, however. nothing to show that the defendant was in any way liable for the debt.

> Mr Webber contended that the goods had been supplied on the authority of the defendant, and if he had paid the contractor for them the plaintiff had nothing to do with that.

His Lordship, in giving judgment, expressed himself as dissatisfied with evidence of the plaintiff and his witnesses. The plaintiff stated that on the 14th April last the witness Laurel came to him and ordered the timber in the name of the Procuration, but on subsequent cross-examination it appeared that the plaintiff at this time was not in the Colony at all and that he got this information from somebody else. In reply to the question whether he knew the contractor he said 'No.' Now the timber was to be supplied at the place where it was to be used, and in the circumstances it seemed to his Lordship a very extraordinary thing that the person who supplied it should not know who the contractor was who was using it. After referring to several other portions of the evidence for the plaintiff which he considered unsatisfactory, his Lordship dismissed

> REPORT ON THE SEPARATE SYS-TEM OF MAIN-DRAINAGE. Public Works Department,

Hongkong, 24th August, 1888. Sir,-I have the honour to transmit you the enclosed preliminary Report of Mr F A. Cooper, on the Separate System of main drainage for the city of Victoria and to recommend his propositions to the favourable consideration of His Excellency the Go-

2. The main features of the Project are four, viz.:--(i.) The dissociation of the sewage

houses from storm-waters. (ii.) The rapid conveyance of the townsewage to the sea and its innections disposal in the tidal current by stagnation, and this is what is now occurmeans of separate glazed stoneware drain-pipes of a bore comparatively small because of the elimination of storm-waters.

(iii.) The admission of a limited proportion of rain-fall into these proposed foul-water drains; and

(iv.) The escape of storm-waters and sub-soil drainage into the sea as heretofore through the present main drains of the city which remain undisturbed. 4. The dissociation of house-sewage from

atorm-waters will so greatly reduce the volume of foul water to be dealt with, and will make that volume so manageable as to enable small diameters to be used for the principal arteries, and due to this circumstance the project will be feasible at an outlay that is moderate compared with the relative expense that would attend the construction of the same length of main sewers under the Combined System which requires—in consequence of our heavy rainfalls-that all channels be of an unduly large and costly size. The estimated cost of the four proposed new foul-water mains comprised in this scheme, together with their branches and all contingent works. amounts to \$230,000, but as the eastern district of Victoria is found to be nearly on a dead level and as it is found impossible to give the proposed eastern main gradient or inclination sufficient to in duce a self-cleansing velocity, it will necessary eventually to dispose of the sewage at Wantsai and Bowrington at some additional outlay by conveying it as far east as North Point where the tidal scour is at its greatest and there establishing a steam pumping station, an expedient commonly resorted to in English towns similarly circumstanced. These extra works are estimated at \$113,000, making the total cost

5. The establishment of the Separate System of drainage will in no way nullify or minimize the importance of the main drainage improvements which have been effected by the Government from year t year during the last ten years, for even house-sewage is now diverted to specia channels of its own, properly built rain water drains of adequate sectional area and laid to proper falls are none the less necessity to the city for the removal of sub soil drainage and storm-waters.

6. The Separate System can be carried out without adding to the expense of house-owners, for it will impose no greater burthen on the landlord to connect his house-drain with a Government main sewer under the Separate System than with one under the Combined System. Two housedrains-one for dirty water and one for rain water-will not be required of him. His roof drainage and the rain which falls upon his back-yard may in most cases be allowed to escape over the surface through gutters into side-channels, and thence into the nearest of the numerous street gratings which everywhere communicate with the

storm-water drains. 7. he Separate System of drainage is no new experiment in European cities. As its advantages are brought to light by pracother public Bodies. To Hongkong, if not to-morrow's issue :adaptable before owing to the inadequacy of I the public water supply, it will be specially In the early days of the Colony the accompanying plan.

THE CHAMPION SWEETSTAKES. -Mr John of urgent importance to the Public Health Mr Tell's 90; Mr. John's 75; Mr Ten | sanitary house-drains should be grappled Brocck's 20; Mr Ring's 20; Mr Rodney's with without further loss of time, and this 18: Mr Toeg's 16; Mr J. D. Humphreys' can be done without any need whatsoever 12: Mr Major's 11: Mr Gebhart's 9; Mr of waiting for the adoption or otherwise of Mount's 6. - Total sweeps, \$1,072. - N.-C. the Separate System, as pointed out by Mr Cooper in his Report.

14. The many miles of modern main sewers that have been built by the Government within the last ten years and which have almost entirely replaced the former old defective main drains of the ourlier days of the Colony, more especially in the upper levels of the city, have been well constructed and laid to proper falls, as testified to by Mr Chadwick in his Report on the Sanitation of Hongkong, but it is clear that in spite of the best workmanship and of every precaution the newest and best built main-drain in the world will become an offensive puisance along its whole length if the liquid matter that is led into it at every step from the connexion drains of private houses, is already in a high state of decomposition by reason of previous long

ring in the city of Victoria and calling for an early remedy, 15. The remedy to be adopted to remove the bad smells in the streets which are found to emanate from the Government main sewers is so obvious that no person examining the matter for himself can fail to see it. The evil must be attacked at its source : that is -at the house-drains. All house-drains found in a defective and insanitary condition, wherein kitchen and other foul waters stagnate and forment for long periods, must be taken up and relaid to proper falls in impervious glazed stoneware in lieu of porous black brick, and must be furnished with those safeguards to health in the respect of trapping ventilation, and disconnexion which are now clearly specified in the new Ordinance and its proposed Bye-Laws. When properly reconstructed and passed by the Sanitary Board such house-drains may be connected with the present main-drains, and when the time arrives for laying the new pipe mains on the Separate System, it will be the duty of the Public Works Department to see that the connexion between such improved housedrains and the new Government mains is properly effected free of cost to the houseowner. If groups of the worst of these defective old house-drains are taken in hand at the same time and dealt with in rapid succession—and there is no aeason why this should not be done-the Sanitary Board at the end of twelve months will be already far on the road to relieve the public fre-

quenting the streets of the city from the

smells that have given rise to complaints.

and what is fur more important as regards

the inmates of private dwellings, the Board

will have done more for their health and

comfort than could possibly be obtained at

this moment from any other form of sanitary improvement. 16. I make the foregoing remarks lest it be misapprehended that the consideration of the Separate System need retard early drainage reforms in private premises. 17. Although Mr Cooper, since arrival in the Colony, has been devoting a large portion of his time to the study of our local conditions with a view to the adoption of the best system of public main-drainage to be devised for the city, the vast amount of detail which had to be mastered by him before he could arrive at definite conclusions, has made it impossible to place his Report before the Governor at an earlier late. The delay, however, is not to be regretted, as it has enabled a very complete which is all important to the health of the

community, and in this conn xion, I deem it my agreeable duty to bring to the notice His Excellency the very thorough manner in which Mr Cooper has carried out this preliminary portion of his work. I have the honour to be, Sir, Your obedient Servant. J. M. PRICE.

Surveyor General. The Honourable Frederick Stewart, LLD. Colonial Secretary. MR COOPER'S REPORT.

There is practically no sub-soil drainage in the city except in the Wong-nei-chung Valley, where such drainage has been carried out during the last six months. PROPOSED WORKS.

of the foregoing facts and a close study of the locality I am of opinion that the ends of efficiency and economy will be best met (1.) the construction of a new system

of pipe sewers admitting only a limited quantity of surface-water and by adopting out-falls for such a system at suitable points east and west of the city. (2.) the utilization of the existing

drains for conveying the natural streams through the city and for carrying off surface and sub-soil waters. Though the sub-soil drainage of malarial soils is a matter of great importance to the Public Health, this will be impracticable in the lower parts of the city at present unless

such sub-soil drains are connected with the sewers, an expedient that would be attended with serious risk, for it would convert such sub-soil drains into channels for the escape of sewer air through the sub-soil into the houses themselvs. Owing to the long periods of drought or of limited rainfall and to the steep declivity of the greater part of the drainage areas, the flow of water in sub-soil drains will always be very variable and will no doubt very often be nik In the latter case drain traps attached to sub-soil drains will prove ineffective and sower air will freely course through such drains and issue through the interstices provided for the escape of sub-soil water.

Further, in the case of any stoppage ocout risk into the present existing drains.

I will now briefly describe the new Separate System of sewers proposed. looking at the plans it will be seen the city | private premises is a detail that must be is naturally divided into four drainage districts. Three of these districts are situated to the west of the Albany Nullah, and one The following are extracts from the Re. to the cast. There are thus, four proposed provided at every change of direction in main interespting sewers which for the conmore generally adopted by Municipal and Cooper), and these will be supplemented in venience of reference I will allud to as numbers 1, 2, 3, and 4 draining districts Nos. 1, 2, 3, and 4 respectively as marked on the
